

MOA Track

U.S. EPA and Ohio EPA have entered into a Superfund and RCRA Memorandum of Agreement for the Voluntary Action Program, called the "MOA Track". The MOA Track requires volunteers to follow the existing procedures for VAP sites and conduct additional steps. The MOA Track includes more agency involvement, such as notice of entry into the program, approval of certain documents and works plans, and greater public involvement. Participants who conduct these additional steps have the added comfort of knowing that the cleanup is being conducted under a program that the U.S. EPA has reviewed and determined to be adequate.
