Notice is hereby given that the Ohio Environmental Protection Agency, Division of Air Pollution Control (DAPC) reviewed the rules contained in Ohio Administrative Code (OAC) Chapter 3745-80. This chapter contains 3 rules relating to the prohibition on tampering with or disabling emission control equipment on motor vehicles and the requirements for inspections of vehicles to determine if tampering has occurred. These rules implement a portion of Title II of the Clean Air Act in the state of Ohio.

As part of the rule-making process, DAPC is required by Section 121.39 of the Ohio Revised Code to consult with organizations that represent political subdivisions, environmental interests, business interests, and others affected by the rules. The DAPC is offering your organization the opportunity to comment on these rules before the division formally proposes them.

These rules and supporting documentation, including a draft of the Business Impact Analysis (BIA) document, are available electronically for review at: http://epa.ohio.gov/dapc/regs/regs.aspx. See the information under the “Interested Party Review” tab for OAC Chapter 3745-80. We request that you provide us with any comments you may have to the rules and draft BIA document by Friday, January 29, 2021.

Please submit your comments or suggestions to the following addresses. Persons submitting comments electronically are encouraged to follow-up with a hard copy via regular mail:
