## June 11, 2019 - Addendum to the Quality Assurance Project Plan for Statewide Ambient Water Quality Monitoring Guidance

DSW is in the process of changing its overall sampling strategy and these changes are slight so the decision was made to not do a complete update to the 2018 QAPP and instead to create this Addendum.

**Data Collection section.** Two site location changes were made to the July 2, 2018 Ambient Sites QAPP Table 1, and one site location change made to Table 3, see below. The sites below are where the sites were moved to and are the present sampling locations.

Table 1. List of all ambient water quality and biological (bolded) stations sorted by district.

District	Samp. Freq	Description	RM	USGS gage number	Storet No./EA3 ID	DA (sq mi)	huc8 or 12	N. Lat	W. Long
