

3745-104-37

Emergency response program and exercises.

- (A) The owner or operator shall develop and implement an emergency response program for the purpose of protecting public health and the environment. ~~Such program shall~~ and include the following elements:
- (1) An emergency response plan, which shall be maintained at the stationary source and contain at least the following elements:
 - (a) Procedures for informing the public and local emergency response agencies about accidental releases~~;~~.
 - (b) Documentation of proper first-aid and emergency medical treatment necessary to treat accidental human exposures~~;~~ and.
 - (c) Procedures and measures for emergency response after an accidental release of a regulated substance~~;~~.
 - (2) Procedures for the use of emergency response equipment and for its inspection, testing, and maintenance~~;~~.
 - (3) Training for all employees in relevant procedures~~;~~ and.
 - (4) ~~Procedures to review and update, as appropriate, the emergency response plan to reflect changes at the stationary source~~ A schedule for reviewing and updating the plan as appropriate based on changes at the stationary source or new information obtained from coordination activities, emergency response exercises, incident investigations, or other available information, and ensure that employees are informed of changes.
- (B) A written plan that complies with other federal contingency plan regulations or is consistent with the approach in the national response team's "Integrated Contingency Plan Guidance" ("One Plan") and that, among other matters, includes the elements provided in paragraph (A) of this rule, shall satisfy the requirements of this section if the owner or operator also complies with paragraph (C) of this rule.
- (C) The emergency response plan developed under paragraph (A)(1) of this rule shall be coordinated with the community emergency response plan developed under section 3750.05 of the Revised Code or rules adopted thereunder. Upon request of the ~~local emergency planning committee~~ LEPC or emergency response officials, the owner or operator shall promptly provide to the local emergency response officials information necessary for developing and implementing the community emergency response plan.

(D) Emergency response exercises.

(1) Notification exercises. The owner or operator of a stationary source with any program two or program three processes shall conduct an exercise of the stationary source's emergency response notification mechanism required under paragraph (A) of this rule, as appropriate, before December 19, 2024 and annually thereafter. Owners or operators of responding stationary sources may perform the notification exercise as part of the tabletop and field exercises required in paragraph (D)(2) of this rule and maintain a written record of each notification exercise conducted over the last five years.

(2) Emergency response exercise program. The owner or operator of a stationary source subject to the requirements of this rule shall develop, and implement an exercise program for its emergency response program, including the plan under paragraph (A)(1) of this rule and involve facility emergency response personnel and, as appropriate, emergency response contractors. When planning emergency response field and tabletop exercises, the owner or operator shall coordinate with local public emergency response officials and invite the officials to participate in the exercise that includes the following:

(a) Emergency response field exercises involving the simulated accidental release of a regulated substances (such as toxic substance releases or release of a regulated flammable substance involving a fire or explosion).

(i) Frequency. Consult with local emergency response officials required by rule 3745-104-36 of the Administrative Code to establish an appropriate frequency for field exercises.

(ii) Scope. Field exercises shall involve tests of the source's emergency response plan, including deployment of emergency response personnel and equipment, and the following:

(a) Tests of procedures to notify the public and the appropriate federal, state, and local emergency response agencies about an accidental release.

(b) Tests of procedures and measures for emergency response actions including evacuations and medical treatment.

(c) Tests of communication systems.

(d) Mobilization of facility emergency response personnel, including contractors, as appropriate.

(e) Coordination with local emergency responders.

(v) A schedule to promptly address and resolve recommendations.

(3) Alternative means of meeting exercise requirements. The owner or operator may satisfy the requirement to conduct notification, field or tabletop exercises through the following:

(a) Exercises conducted to meet other Federal, state or local exercise requirements, provided the exercise meets the requirements of paragraphs (D)(1) and (D)(2) of this rule.

(b) Response to an accidental release, provided the response includes actions indicated in paragraphs (D)(1) and (D)(2) of this rule and an after-action report is prepared by the owner or operator comparable to the exercise evaluation report required in a paragraph (D)(2)(c) of this rule, within ninety days of the incident.
